

Table 1: General Assistance Program**Standardized Work Plan Format****Tribe:** Columbia River Inter-Tribal Fish Commission**Region:** Region 10**Work Plan Period Begin:** 10/1/2017**End:** 9/30/2018

Work Plan Component 3: Continue to coordinate with EPA and other federal agencies on the development of federal environmental protection programs and on the prioritization of programs that support the water quality and toxics reduction goals defined in CRITFC's 2014 Watershed Department Strategic Plan.

Capacity Indicator Developed (see GAP Guidebook to select one or more that apply): B.2.5,B.6.9,B.8.3

Personnel: WATER QUALITY COORDINATOR

Long-Term Outcome (s) (Changes in the Environment, Public Health, Behavior or Knowledge):

- Maintain the capacity to participate in the national system of environmental protection.

Intermediate Outcome (s) (this work plan period):

- Maintain a presence in regulatory activities and policy decision making that affects tribal resources at the federal or national level.
- Development of clear strategies to offset or mitigate the impacts of toxic contamination on the fishery resources of member tribes.

Estimated Cost: \$32,000

Estimated Work Years: .25

COMMITMENTS		ESTIMATED TASK COST (optional)	END DATE	OUTPUTS AND DELIVERABLES
3.1	Coordinate with EPA, Bonneville Power Administration, Bureau of Indian Affairs, Army Corps of Engineers, Northwest Power Conservation Council or other federal		9/30/2018	a) Participate in EPA OPPT's partnership group, the National Tribal Toxics Council, to provide tribal perspectives on toxic reduction and pollution prevention and to advocate for

	agencies on the development of federal environmental protection and climate change programs.			<p>measures that will limit the environmental impact of industrial and household chemicals on fish and other first foods.</p> <p>b) Support member tribe participation on the Northwest Power Conservation Council meetings that concern water quality issues in the fish and wildlife program.</p> <p>c) Provide list of meetings, conferences, presentations, including dates, location, and outcome, in each progress report to EPA.</p>
3.2	Work with EPA to assure that tribal perspectives and projects are considered in actions that result from NOAA's 2015 biological opinion on options to protect and enhance cold water refuges in the Columbia River and assist in identifying project opportunities for member tribes.		9/30/2018	<p>a) Advocate for incorporation of tribal projects into federal funding decisions to assist the tribes in implementing programs with stable source funds for water quality programs, climate change, cold water protection, source control, pollution prevention, watershed protection and restoration activities.</p> <p>b) Seek funding to continue monitoring of toxic contamination in food webs of the Columbia Basin.</p> <p>c) Provide list of meetings, conferences, presentations, including dates, location, and outcome, in each progress report to EPA..</p>
